INVITE CITY FATHERS TO INSPECT TROLLIBUS

Members of the Streets Committee of the City Council have been extended an invitation by officials of the Virginia Railway and Power Company to visit New York and Philadelphia and inspect the trackless trolley in action. The invitation was extended through Thomas S Wheelwright, president of the company. No announcement has been made as to whether or not the committee will accept the invitation. President Wheelwright extended the invitation to Ordway Puller as chairman of the committee, with the request that the entire committee make the trip. Close investigation of the troilibus at both places, where various conditions of operation are in force, will be afforded the committee.

Streets committees of Passage

Streets committees of Porismouth and Norfolk also have been extended a similar invitation, and it is expected the latter two cities will accept. Mayor Roper, of Norfolk, is said to be in favor of the trip, in view of the fact that the city of Norfolk is on the verge of granting a new franchise to the company, which will include the operation of the trollibuses.

A Store of Generations

It may sound odd, but the thought was conveyed to us by an unusual incident that occurred in our establishment several days ago, when a purchase was made by a great-grandson in a family that we have had the pleasure of serving four generations. First, the great-grandfather, then the grandfather, subsequently the father, and then, as above stated, the son.

We feel proud of the fact that we have retained the good-will and confidence during all the years that have passed. We accept it as a seal of approval that will inspire us to even greater efforts for service in the future.
